Critchfield, Critchfield & Johnston is a law firm with deep roots in Northeast Ohio and a history that dates back to the Civil War era. Since that time, the firm has served as trusted legal advisors to thousands of successful businesses and individuals and set the standard for a climate of excellence, teamwork, and client service.

At its core, Critchfield is a business-oriented firm known for its ability to handle complex, high-stakes transactions of all kinds—from mergers and acquisitions to major real estate sales and development. We also provide our clients with leading-edge advice as they prepare their businesses and lives for the future, guiding them through complicated issues of estate, trust, tax, and business succession planning.

COLLABORATION

For us, the concept of “collaboration” is a core element of our commitment to client service. Whether our clients’ legal goals are business-related or personal, Critchfield’s attorneys are ready to join with them in common purpose. We will bring to bear our team approach, applying the skill sets of attorneys across different practice areas and offices to ensure that every client’s goals are not just met, but exceeded. We listen to your concerns, provide a clear course of action, and see that plan through to resolution.
