Corporate and Business

TRADEMARK AND COPYRIGHT PROSECUTION AND LICENSING

In today's economy, our clients' intellectual property ("IP")—their trademarks, copyrights, web domains, and trade secrets—are often among their most valuable assets.

With the rapid pace of technological change comes increased risk associated with IP. We help businesses, universities, artists, producers, authors, and others to obtain, protect, and capitalize on their IP rights. We help our clients reduce risks associated with third-party assertions of, or infringement on, their IP rights while also working to protect them against allegations of infringement on the IP rights of others.

Among the services we provide are:

- General IP counseling
- Copyright and Trademark Registration
- Trade Secret Litigation
- Non-Disclosure Agreements
- Copyright and Trademark Litigation
